Bid No. 20-21-05 Construction of Bridge 8130 Replacement on County Road 5500

Public Works

ADDENDUM #2

January 11, 2021

ADDITIONAL INFORMATION TO THE BID SPECIFICATIONS AS FOLLOWS:

ADDITIONAL INFORMATION:

- Changes and clarification to the bid specifications have been made pursuant to the attached addendum sheets as provided by TY Lin International dated January 4, 2021 (225 pages).

Other Attachments:

- Pre-bid sign-in sheet attached (1 page)
- As Builts for the original design (19 pages). The information contained may or may not be indicative of the as built condition.

Plan Holders List:

Bidders are reminded that in order to obtain the most current and up to date listing of plan holders, you are encouraged to visit the County's Website at www.sjcounty.net (under 'Bids, Proposals & Vendors', choose 'Current Bids/Proposals Page').

PLEASE ACKNOWLEDGE RECEIPT OF THIS ADDENDUM ON THE BID OFFER PAGE.

PRE-BID CONFERENCE

DATE: December 17, 2020 **TIME:** 10:00 am **BID NO.:** 20-21-05 **ITEM:** Construction of Bridge 8130 Replacement on County Road 5500

TO WHOM IT MAY CONCERN:

In consideration of my (our) expected use of the bridge under construction across the San Juan River in Sections 33 and 34 T29N, R12W, N.M.P.M. the County= of San Juan and others working on the construction of the bridge have my (our) permission to use fill dirt from my (our) land adjoining the river to build the bridge approaches.

Eudoro Medina .....

Adelido Archibeque .....

Frances Archibeque .....

STATE OF NEW MEXICO

ss

COUNTY OF SAN JUAN

The foregoing instruemet was acknowledged before me this .....30th..day of .....April....., 1970, by ..Eudoro Medina, Adelido Archibeque, and ..Frances Archibeque.....

My commission expires:
(SEAL) Nov. 25, 1973

Charles R. Keller Jr.
Notary Public

Note: They asked that no more than needed be used and take it from as close to the river as practicle and not leave holes.
CRK

March 25, 1971

TO WHOM IT MAY CONCERN

We, Mr. and Mrs. Richard F. Clayton and Mr. and Mrs. F. L. Lee, agree to have the San Juan River turned down the north fork of the San Juan River and shut off at the main channel on or near the southern portion of the Clayton Farm to allow San Juan County and other w ork on the community bridge under construction there providing that the County and others will agree to turn the w ater back into the main channel by thunderstorm season or when the work is completed which ever is sooner. It is understood that the water released from the Navajo Dam will be held at the 500 cubic feet per second level for 60 days beginning March 29, 1971. This agreement is for those 60 days. If work is not completed by then, further arrangements satisfactory to all parties for continuance for a stated period of time. No claim will be made by the undersigned against the County of San Juan, individuals, or any others for any possible damages if the above procedures are followed.

Richard F. Clayton
Richard F. Clayton

F. L. Lee
F. L. Lee

Lavean Clayton
Lavean Clayton

Eva Lee
Eva Lee

STA TE OF NEW MEXICO
COUNTY OF SAN JUAN

The foregoinginstrument was acknowledged before me this 25th day of March 1971 by F. L. Lee and Eva Lee and by Richard F. Clayton and Lavean Clayton on this 28th day of March, 1971.

Charles R. Kelly
Notary Public

My Commission expires: 11/25/73

The Claytons sign the above w ith the following stipulation. When water is cut back into the main channel the Claytons want part of the river to go down the north channel adjacent to their pumping sump hole as it formerly did. At that time if water does not flow past their sump hole, the County of San Juan is to cut a channel which will bring north fork flow of water either adjoining or through the sump hole.

ADDENDUM NO. 2

DATE: Friday January 8, 2021

PROJECT NAME: Bridge 8130 on San Juan County Road 5500

TO: ALL BIDDERS OF RECORD

This Addendum forms a part of the contract Documents and modifies or supplements the Project Manual or the Drawings as indicated below. All other provisions of the Contract Documents shall remain unchanged. This Addendum is hereby made a part of the Contract Documents to the same extent as those provisions contained in the original documents and all itemized listings thereof. Bidders shall acknowledge receipt of this Addendum in the appropriate space on the Bid Proposal form.

I. ADVERTISEMENT FOR BID, PRE-BID CONFERENCE, BID SUBMISSION AND BID OPENING

II. BID PROPOSAL-changes to the bid proposal are listed here (in detail)
The Basis of Bid is hereby deleted in its entirety and replaced with the attached revised Basis of Bid.

III. SUPPLEMENTAL SPECIAL PROVISIONS

IV. SUPPLEMENTAL TECHNICAL SPECIFICATIONS

V. QUESTIONS FROM BIDDERS AND/OR PRIOR APPROVALS, RFIs and CLARIFICATIONS

1. It appears the quantity for item 416000 Minor Pavement has a blemish on the bid item sheet from the spec book making it appear to be .6530 SY, the plan sheet reflects the quantity 6,530 SY. Please clarify that the quantity is correct to the plan sheet.
    a. An updated Basis of Bid is provided with this addendum.

2. Item 502600: Obstruction Removal, 60 LF. Define the obstruction.
    a. It is the estimated quantity of timber piles to be removed from the existing caps down to the plan specified depth below the ground surface.

500 Fourth Street NW, Suite 403
Albuquerque, NM 87102
T 505.247.2646 / F 505.247.2362

3. Item 601000: Removal of Structures and, 1 LS. Is Item 502600 a redundancy of item 60100?
    a. No, the Removal of Structures and the Obstruction Removal will be paid separately.

4. Item 603100: Is this a Chemical Stabilization? If so; What is recommended?
    a. Per the NMDOT Specification 603.2.5 the temporary soil stabilant shall be from the NMDOT Approved Products List.

5. Item 210003: Major Structural Backfill. Is this item an imported low strength concrete or select material?
    a. The backfill should meet the requirements of the NMDOT Specification 210 – Excavation and Backfill for Major Structures.

6. Is steel an acceptable material for sheet pile?
    a. Steel sheet piles would be subject to the approval of the Army Corps of Engineers as an alternate. The County is willing to consider this alternative but can't guarantee the Army Corps of Engineers will accept the alternative.

7. On sheet number 1-8 of the plans "ENVIRONMENTAL COMMITMENTS", number 8 references contractor to adhere to 404/401 permit and certification in Appendix F. I can't seem to locate the documents, will these be issued in an addendum or can to point me where Appendix F is located.
    a. The Categorical Exclusion is attached to this addendum.

8. Are the Geotech Files AKA Boring Logs available for review? We'd like to get a feel for the rock formation at the bridge.
    a. The Geotechnical Report is attached to this addendum.

9. Will Earthwork X-Section be made available?
    a. Earthwork cross sections will not be provided.

10. Will full closures be allowed during certain activities? If so how many are allowed and will there be any time restraints?
    a. Closures will need to be approved by the Owner and Engineer prior to the work no less than 1 week in advance so proper notice can be given. The closures will need to be proven by necessity rather than convenience. The bridge will need to remain open outside of working hours (nights and weekends).

11. Since the contract is adhering to NMDOT Spec., will contractor QC testing follow section 906 MINIMUM TESTING REQUIREMENTS?
    a. Yes, QC testing will follow Section 906 of the NMDOT specifications.

TY·LIN INTERNATIONAL
engineers | planners | scientists

500 Fourth Street NW, Suite 403
Albuquerque, NM 87102
T 505.247.2646 / F 505.247.2362

12. Sheet 3-5 in the plans references a geotechnical report (note 3). Will the report be made available?
    a. The Geotechnical Report is attached to this addendum.

13. Will the engineer be able to provide the as-built drawings for the San Juan Co CR 5500 Bridge or inform the bidders of where to obtain them?
    a. There are no existing as-built drawings of the bridge to provided. The contractor should visit the site to visually inspect the bridge to determine existing conditions and removal.

14. 540060 – Reinforcing Bars Grade 60 – 12,362 LBS (by using their schedule in the plans, I am coming about 5,800 LBS more
    a. The reinforcing bars located in the diaphragms at abutment 1 and abutment 2 are epoxy coated reinforcing bars and not uncoated bars as shown in the bar list. This applies to bars AD1 through AD18 and the quantities in the Basis of Bid are based on this.

15. Please verify the Bid Item descriptions on the Bid Form. Several of the descriptions seem to be cut off.
    a. An updated Basis of Bid has been provided as part of this addendum.

16. Please provide cross sections at 20' intervals along the length of the project so that we can analyze earthwork quantities.
    a. Cross sections will not be provided for this project.

17. Please verify that metal stay-in-place forms can be used for the bridge deck.
    a. Yes, metal stay-in-place forms may be used for the bridge deck.

18. Please provide a copy of the Geotechnical Report.
    a. Geotechnical Report provided as part of this addendum.

19. Please provide a copy of the 404 permit so that we can see what our limitations will be.
    a. Categorical Exclusion Document is provided as part of this addendum.

Dollars

(Base Bid Total amount written in words)

ARTICLE 6 – TIME OF COMPLETION

6.01 Bidder agrees that the Work will be substantially complete within 240 calendar days after the date when the Contract Times commence to run as provided in Paragraph 4.01 of the General Conditions.

6.02 In addition, Bidder agrees to complete or correct all punch list items attached to the Certificate of Substantial Completion within 30 consecutive calendar days following the date of Substantial Completion.

6.03 As provided in the Special Provisions, Bidder further agrees to pay as liquidated damages the amount of **$1,500** for each consecutive calendar day beyond the agreed time that Substantial Completion is not achieved and **$1,500** for each consecutive calendar day beyond the agreed time that all punch list items are not completed or corrected.

6.04 Bidder agrees to the provisions of the Agreement as to liquidated damages.

ARTICLE 7 – ATTACHMENTS TO THIS BID

7.01 The following documents are submitted with and made a condition of this Bid:

A. Evidence of Bidder's authority to do business in New Mexico.

B. Bidder's New Mexico contractor license number.

C. Required Bid security in the form of 5%;

D. List of Proposed Subcontractors;

E. Bid Guaranty

F. Affidavit of Bidder

G. Bidder's List of Quoters for the Disadvantaged Business Enterprise (DBE) Program

H. Disadvantaged Business Enterprise (DBE) goal Form A-585

I. Non-Debarment Certification

J. Pay Equity Reporting Acknowledgement

K. Subcontractor and supplier qualification information; coordinate with provisions of Article 12 of these instructions, "Subcontractors, Suppliers, and Others."

L. Bidder's Qualification Statement with supporting information

M. Resident or Veteran Contractor Certificate (If applicable)

ARTICLE 8 – DEFINED TERMS

8.01 The terms used in this Bid with initial capital letters have the meanings stated in the Instructions to Bidders, the General Conditions, and the Supplementary Conditions.

ARTICLE 9 – BID SUBMITTAL
