PROP No. 22-23-03, Planning / Engineering / Survey Services for the Lower Animas Valley Recreation Trail

ADDENDUM #2
August 29, 2022

ADDITIONAL INFORMATION / CLARIFICATION FOR THE PROPOSAL SPECIFICATIONS
AS FOLLOWS:

Question: Cultural and Environmental inventory of selected alternative. I'm not clear what "environmental inventory" may include. Is it only cultural/bio or is it more NEPA like with an alternatives assessment. Does the alternative assessment include either a desktop environmental evaluation of alternatives or maybe fieldwork?

Answer: The Inventory will include cultural/bio surveys of the preferred alternative developed through the course of the design phase. No NEPA alternatives analysis required.

Question: Is ROW acquisition anticipated in this project or is it all expected to be within the existing railroad ROW for the full alignment of the trail?

Answer: No ROW acquisition is included in the scope. ROW needs may be identified during the design phase. ROW acquisition if required will be managed by separate contract.

Question: Identification of Utility Conflicts. Is this surveying an 811 call or is private utility subsurface utility investigations required?

Answer: An 811 design locate survey is sufficient.
