

Job Description

TITLE: Information Systems Generalist	JOB CODE: 3242
DEPARTMENT: Information Systems	FLSA: Non-Exempt
PREPARED: October 11, 2016	FLSA CLASS: Professional
UPDATED: August 7, 2022	WORK LOCATION: Aztec, NM
	REMOTE WORK ELIGIBLE: YES

Summary: Under general supervision of the I.S. Infrastructure Architect, the Information Systems Generalist performs ongoing, day-to-day maintenance of the County's software, computers, network systems, and servers. The individual is responsible for providing quality and timely implementation of new software, upgrading of security packages, and assistance to users in all related computer and software programs. This position requires a high quality of customer service to the user community with quick response and hands on technical support. The individual maintains and reviews proper security permissions and policies for information systems including network equipment (firewall, switches, etc.), server, and applications. This I.S. professional will also help to ensure stable operation of information systems and services.

Essential Job Functions: *The list that follows is not intended as a comprehensive list; it is intended to provide a representative summary of the major duties and responsibilities. Incumbent(s) may not be required to perform all duties listed, and may be required to perform additional, position-specific tasks.*

- Assists users with problems and needs daily; provides both phone and desktop support.
- Designs custom reports for departments as requested using various reporting tools including SQL Server Reporting Services and Excel.
- Works directly with the Treasurer's Office in the months of September and October; helps verify the new tax rolls from the Assessor's office; provides ongoing support throughout the year to both offices.
- Creates reports and batches from the Enterprise Resource Planning software; assists users as needed.
- Helps train users on the use of the Enterprise Resource Planning software system; sets them up on the system and assists them in the use of the system.
- Responsible for the Enterprise Resource Planning application security.
- Responsible for designing and maintaining Enterprise Resource Planning business rules.
- Provides desktop, general office (printer, point of sale, check scanner, etc.) and Microsoft Office support.
- Documents instructions for technical procedures and for user procedures.
- Researches and resolves technical issues relating to database applications.
- Researches and coordinates new releases and patches for the County's Enterprise Resource Planning software.
- Maintains voting machines; orders parts to repair and maintain machines; prepares them for certification.
- Sets up election night reporting using proprietary software to obtain voting machines results from various polling places throughout the County.
- Maintains various County web sites.
- Must ensure compliance with WCAG 2.0 AA and other guidelines determined by the ADA Web Coordinator when making changes to any webpage.
- Perform regular installations and updates for network hardware and software systems.
- Provide day-to-day server support to improve workflow.
- Manage regular backup, storage, and retrieval functions of critical data.
- Maintain and troubleshoot network printers, network firewalls, network servers, telephone systems, and other company networked systems.
