VII. Precautions For Safe Handling And Use

Steps to be taken in case Material is released or spilled:

Wear protective equipment including rubber boots rubber gloves, rubber apron and full-face piece or a half mask Air - Purifying Cartridge Respirator with particulate filters. Wear chemical goggles if a Half Mask is worn. **Caution:** When handling Fire Extinguisher which has accidentally discharged show care when handling and point extinguisher discharge nozzle away from the face area. For small spills sweep - up and dispose of in a DOT- Approved Waste Container. For large spills Shovel into DOT - Approved Waste Containers. Keep out of sewers, storm drains surface waters and soil. Comply with all applicable Government Regulations on spill reporting handling and disposal of waste.

Waste Disposal Method:

Dispose of Contaminated product and materials used in clean-up of spills or leaks in a manner approved for this material. Consult appropriate Federal State, and Local Regulatory Agencies to ascertain proper disposal procedures. **Note:** Empty Containers can have residues, gases, and mist and are subject to proper waste disposal, as above.

Precautions To Be Taken Handling and Storing:

Store in a cool, dry, well -ventilated place away from acidic and ammonium compounds. Wash thoroughly after handling. Do not get in eyes, on skin, or on clothing. Do not cut, grind, weld, or drill on or near product containers. Containers, even those that have been emptied, will retain residue and vapors. Always obey hazard warnings and handle empty containers as if they were full.
